SPENCER APPOINTS AUTHORIZED SERVICE CENTER FOR SOUTHWESTERN U.S. SHERMCO INDUSTRIES

The Spencer Turbine Company and Shermco Industries, Inc. have signed an agreement making the Irving, Texas-based Company a Spencer Authorized Service Center. Its five-state service territory for Spencer includes Texas, Oklahoma, Louisiana, New Mexico and Arkansas.

Shermco is authorized to provide repair and service for Spencer multistage centrifugal fabricated blowers (except UL-Listed hermetic gas boosters), Power Mizer® multistage cast centrifugal blowers, Industravac® self-contained vacuum systems, separators and dust collectors, Vortex® regenerative blowers, electrical controls and control systems.

Shermco will be able to perform all repair, maintenance and associated service for these products, including start-up, warranty and non-warranty repair work, and will use only Spencer-manufactured or Spencer-approved replacement parts to ensure customers receive parts that meet Spencer quality standards.

Shermco is a respected service company with 32 years of experience handling many types of electrical service needs, from high voltage lines to electric motors up to 10,000 HP. Its specialties include testing, repair, maintenance and analysis of power distribution systems and electrical rotating equipment. Shermco is a member of NETA (National Electrical Testing Association) and EASA (Electrical Apparatus Service Association).

Shermco offers 24/7 service and employs 150 people, including factory-trained and NETA-certified technicians and engineers at their two locations in Irving and Austin, Texas. Shermco personnel recently visited Spencer headquarters for an extensive hands-on service-training program.

We look forward to this opportunity to provide local service to Spencer customers in the Southwestern US.
