Putting It All Together – Products & Services for the Municipal Wastewater Treatment Market

Industrially rated products offering effective solutions for air and gas handling problems

- Multistage centrifugal blowers
- Single-stage centrifugal blowers
- High-speed turbo blowers
- Hermetic gas boosters
- Regenerative blowers
- Custom-engineered products with special materials for extreme temperatures and pressures

Complementary accessories with single source convenience and compatibility

- Standard and custom electrical control panels – UL, CUL Listed and CE compliance available
- Dissolved oxygen control systems
- Valves, gauges, couplings, shrink sleeves, vibration isolators and other system components

Comprehensive engineering and other customer support services

- The industry's largest complement of technical specialists in air and gas handling technology
- Worldwide parts and service organization
- Application research and testing facility

Global organization of sales representatives and distributors offering

- Product selection, installation and operation assistance
- Comprehensive system design services
- Follow-up services and troubleshooting
